"Course programs may change during committee by International Joint Medicine Program administration if deemed necessary."

Tıp Fakültesi

**MARMARA UNIVERSITY  
EASTERN MEDITERRANEAN UNIVERSITY  
INTERNATIONAL MEDICAL SCHOOL**

**CELLULAR METABOLISM AND TRANSPORT  
YEAR 1 COURSE 2  
November 17<sup>th</sup>, 2025 – January 8<sup>th</sup>, 2026**

**Year 1 Coordinators**

Prof. Mustafa AKİPRİK & Prof. Dilek AKAKIN & Assoc. Prof. Ergül MUTLU ALTUNDAĞ

**PBL Module Coordinator**

Prof. Rezzan Gülhan  
Inst. Hüseyin Beyaz

**Coordinator of Multidisciplinary Students' Lab.**

Assoc. Prof. Burak AKSU  
Assoc. Prof. Ergül MUTLU ALTUNDAĞ

**Coordinator of Clinical Skill Lab.**

Prof. Hasan R. YANANLI  
Dr. Zehra GÜLTEKİN

**Coordinator of ICS Res. Lab.**

Prof. Hasan R. YANANLI  
Assist. Prof. İlke AKÇAY

**Vice-Chief Coordinators**

**Assessment**

Assist. Prof. Cevdet NACAR  
Assist. Prof. Halil Eren SAKALLI

**Student Affairs**

Assist. Prof. Can ERZİK  
Assist. Prof. İlke AKÇAY

**Chief Coordinator**

Prof. Hasan R. YANANLI  
Assoc. Prof. Amber EKER

**Coordinator of Medical Education Program  
Evaluation and Development Commission**

Prof. Tunç Öneş

**Coordinator of the Joint Program**

Prof. Süleyman Ümit ŞEHİRLİ

**Dean (EMU) (a)**

Prof. Nilüfer GÜZOĞLU

**Dean (MU)**

Prof. Süleyman Ümit ŞEHİRLİ

*"Course programs may change during committee by International Joint Medicine Program administration if deemed necessary."*

#### LEARNING OUTCOMES / COMPETENCIES

- A. Clinical Care: Qualified patient care and community oriented health care**
1. Basic clinical skills
  2. The organization and management of the patient and the patient care
  3. The organization and the management of health care delivery services / system
  4. Health promotion and disease prevention
- B. Medical Knowledge and Evidence-Based Medicine**
5. Appropriate information retrieval and management skills
  6. The integration of knowledge, critical thinking and evidence-based decision making
  7. Scientific methods and basic research skills
- C. Professional Attitudes and Values**
8. Communication skills and effective communication with patients / patient relatives
  9. Interpersonal relationships and team working
  10. Ethical and professional values, responsibilities
  11. Individual, social and cultural values and responsibilities
  12. Reflective practice and continuing development
  13. Healthcare delivery systems, management and community oriented healthcare
  14. Education and counseling

#### PHASE-1 LEARNING OBJECTIVES

1. Understanding the normal structures and functions of human body
2. Correlating the basic concepts and principles to each other that define health and disease; applying basic concepts and principles to health and disease conditions
3. Developing clinical problem solving, clinical reasoning and evaluation skills by integrating biomedical, clinical, social and humanities knowledge
4. Gaining basic clinical skills by applications in simulated settings.
5. Awareness of the professional values in health and disease processes (professional, individual, societal) and acquisition necessary related skills
6. Evaluating critically and synthesizing all the medical evidence and perform respecting scientific, professional and ethical values
7. Acquisition skills in reflective thinking and practicing, being open to continuous individual / professional development.

#### PHASES – 1 THEMA/ORGAN SYSTEM-BASED COURSE PROGRAMS

Year 1, Course 1: Introduction to Cell and Cellular Replication

#### **Year 1, Course 2: Cellular Metabolism and Transport**

Year 1, Course 3: Development and Organization of Human Body

Year 1, Course 4: Introduction to Nervous System and Human Behavior

Year 2, Course 1: Cell and Tissue Injury I

Year 2, Course 2: Cell and Tissue Injury II

Year 2, Course 3: Hematopoietic System and Related Disorders

Year 2, Course 4: Musculoskeletal, Integumentary Systems and Related Disorders

Year 2, Course 5: Respiratory System and Related Disorders

Year 3, Course 1: Cardiovascular System and Related Disorders

Year 3, Course 2: Gastrointestinal System, Metabolism and Related Disorders

Year 3, Course 3: Nervous System and Related Disorders

Year 3, Course : Growth, Development, Mental and Endocrine Disorders

Year 3, Course 5: Urinary and Reproductive System and Related Disorders

"Course programs may change during committee by International Joint Medicine Program administration if deemed necessary."

| CELLULAR METABOLISM AND TRANSPORT                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
