September 25--September 29	Monday	Tuesday	Wednesday	Thursday	Friday
	Labo Laboratory Module Biochemistry IB Microbiology Group IA Clinical Practice (Groups II, III, and IV)	Laboratory Module Biochemistry IIB Microbiology Group IIA Clinical Practice (Groups I, III, and IV)	Laboratory Module Biochemistry IIIB Microbiology Group IIIA Clinical Practice (Groups I, II, and IV)	Laboratory Module Biochemistry IVB Microbiology Group IVA Clinical Practice (Groups I, II, and III)	Assessment of the program

1. The students will be divided in to 4 groups (I, II, III, and IV).
2. Each group will be in laboratory module for two days and rest of them will be delivered to outpatients clinics. The students will observe the outpatient clinics in 6 days. At the end of the program on Friday, students will take a history and make a physical examination from a real patient. They fill a standardized form and the form will have been signed by the academic staff of the outpatient clinic.
